

Siam University International College Announcement

Siam University offers international education for students coming from at least forty countries, including China, over the past two decades.

The admission procedures screen students for admissions. Once admitted they are required to attend classes, to read and work on assignments prescribed by the teachers in the curriculums as well as taking quizzes, midterm and final examinations for each subject of study. Further, students are required to take pre-graduation English tests for language skills assessment prior to graduation.

Chinese students, Thai students, African students, European students, and students from many more countries have been coming to enroll in the BBA or MBA curriculum in the International College at Siam University for twenty years to date.

The students, as well as Chinese students, have the freedom to choose/select courses within the curriculum they enrolled in each semester. They are free to mix and learn among the diverse nationalities in their curriculum enrollment in the International College.

The International College charges tuition fees per semester or per year according to the rates and refund policies established by Siam University. Tuition payments are made directly to the University Finance Department at the Admissions Office on campus.

The International College at Siam University serves students from diverse countries and continents inclusively. Any other entities alleged to serve

a specific student nationality group exclusively on behalf of the International College are not recognized by the university as legitimate.

The International College is under the supervision of a university-appointed committee to oversee teaching, learning, and assessments in keeping up with international quality education.

The International College embraces the educational philosophy of inclusion. No one single nationality group is allowed to operate as an isolated, exclusive entity in the International College at any time.
